## About Moffet...

### Our Vision

The vision of Moffet School is that every child will learn to his or her full potential. This is a vision relayed to and shared by all stakeholders, including students, parents, teachers, administrators, and the community. A continuous process that involves ongoing monitoring and assessment and modifications as needed of both student work and instructional practices will be employed to maintain this vision and to make it a tangible reality.

### Our Mission

The mission of the John Moffet Elementary School is to develop lifelong learners and productive citizens who have the skills and confidence needed to reach their full potential, the ability to apply their learning effectively and creatively in the community and marketplace, the acceptance and respect for cultural diversity, and the capability to work cooperatively with others to solve problems and adapt to a changing technological environment.

HELP OUR LEARNERS SUCCEED

Equipped with a Makerspace, an Innovation Lab, E-Sports Video Game Design Room, and an Agriculture/Natural Resources Lab, Moffet offers a variety of environments for STEAM Projects.

What our students really need is updated workstations. Students will better be able to collaborate and problem solve together. New Workstations will also provide more storage so students can expand their projects as well as their minds!
